

- **Site Investigation Services**
- **Factual and Interpretive Reporting**
- **In House Drilling**

**Dunelm** are an independent site investigation company providing contractual and consultancy services to a large number of clients. Dunelm have their own experienced drilling crews helping to provide an efficient and flexible service which can be tailored to the client.

All drilling personnel have or are undertaking NVQs in land drilling. The drilling services include the following:

- Cable Percussive Boreholes (5 rigs), including one low headroom rig
- Mini Percussive Boreholes and window sampling (2 rigs)
- Rotary drilled boreholes (6 rigs) including one low headroom rig

Our engineering staff possess a wealth of experience in site investigation work. This experience ranges from road and railway projects, pipelines, sewers, outfall construction, tunneling projects, earth embankment dams, treatment of shallow mine workings and shafts, through to small and large scale housing, retail and industrial developments on brownfield and greenfield sites.
