

Environmental Policy Statement

At Dunelm Geotechnical and Environmental Ltd we recognise our duties under current environmental legislation and regulatory bodies and are committed to meet these requirements to maintain a sustainable working environment. Our employees are informed of their responsibilities to ensure they make regular assessment of our environmental impacts created in the course of our business and take all reasonable precautions, to prevent pollution and protect the environment.

We are committed:

- to provide a framework for setting and reviewing environmental objectives
- to meet our legal and other obligations to protect the environment;
- to eliminate hazards and reduce the impact of our work on the environment;
- to promote positive social values and a sustainable culture amongst staff and subcontractors;
- to maintain vehicles, plant, equipment and our facilities to minimize their environmental impact;
- to follow the waste hierarchy of control when disposing of waste;
- to provide information, instruction and environmental training where necessary for our workforce;
- to have access to competent advice;
- to promote this policy to staff, suppliers, contractors, clients and other interested parties;
- to seek continuous improvement in our environmental performance and management through regular (at least annual) review and revision of this policy; and
- to provide the resource required to make this policy and our environmental arrangements effective.
- to achieve Net Zero emissions by 2050

We maintain an integrated management system which is accredited to ISO 14001:2015 to ensure achievement of our objectives and compliance with environmental legislation.

In support of this policy an environmental aspect and impact register with supporting procedures have been prepared.

Signed:
